M. C. WETMORE.The Missouri-Kansas Zinc Fields
THE INTERNATIONAL ZINC CO., Ltd.,
OF JOPLIN, MO.

Controls some of the richest mines in the Joplin zinc field.

A committee of the directors who have lately investigated the condition of the company's properties, in its present output and the quantity of ore in sight, report a net profit of \$36,229 per annum from three properties on completion of the new mill now in course of construction, figuring a run of 45 weeks, giving yearly dividends of over 30 per cent on the entire capital stock.

With the proposed additional mills to be erected (and the mines are rich enough to supply ore for ten times the present number of mills employed), these dividends will be substantially increased.

The present condition of the International Zinc Co.'s properties, and the fact that the richest ore lies from 300 to 1,000 feet below the present level of work, warrants us in saying that the future promises phenomenal advances in the intrinsic and market value of the stock. The interests of the stockholders are protected by the auditing of all accounts of the company by a firm of Chartered Accountants of international reputation, which is a distinctive feature of security employed by this company. The company is paying at the present time

MONTHLY DIVIDENDS OF 1 PER CENT.

When the new mills and necessary equipment have been supplied the company will be in a position to substantially increase these dividends.

For the purpose of making these the company offers

300,000 Shares at Par,

\$1.00 PER SHARE,

Fully Paid and Non-Assessable.

Applications accompanied by remittance will be received at either of the following offices of the Fiscal Agents:
